

Zhyvotov Denys

Experienced Front-End Developer with over 5+ years of expertise in creating dynamic, user-friendly web applications using JavaScript, TypeScript, React, and modern frameworks. Adept at optimizing user interfaces, collaborating with cross-functional teams, and delivering high-quality solutions. Looking to contribute my skills and creativity to challenging projects.

Work Experience

IntellAct (Modiin, Israel)

Lead UI Developer / UI Engineer

Mar. 2022 - April 2025

- Led the full front-end lifecycle: architecture, design, UI/UX, and testing.
- Designed and implemented authentication flows and REST APIs in collaboration with backend teams.
- Developed frontend tools for server data visualization and interaction, improving release cycles and reducing bugs.
- Enhanced UI design, resolved bugs, and conducted manual testing.
- **Technologies:** JavaScript, React, Redux Toolkit, Ant Design, Canvas, WebSockets, Axios, Google Maps API.

Elpisor LTD (Rehovot, Israel)

Frontend Developer

Jul 2020 - Feb 2022

- Contributed to a social platform for pet owners, enhancing communication and information sharing.
- Developed registration/authentication flows with token validation and encryption.
- Built components, ensured cross-browser compatibility, and integrated location features for lost & found pet tracking.
- **Technologies:** HTML, SASS, JavaScript, React, Redux, React-Router-Dom, Google Maps API.

Vortex (Dnepr, Ukraine)

Frontend Developer

Jan 2018 - Sept 2019

- Developed e-commerce platforms and a weather application with responsive design and cross-browser compatibility.
- Created client-side logic for displaying weather data and automatic location detection.
- **Technologies:** HTML, SASS, Bootstrap, JavaScript, MVC.
